

Floods, Droughts, and Storms, Oh My!

Mark your calendars for an *Extreme Weather* teacher's workshop: August 6 & 7, 2007

The two-day workshop will cover the water cycle, watersheds, and water issues, with an emphasis on extreme weather and how it affects water (and people!) in Idaho, and will include:

- Speakers from the National Weather Service, FEMA, Idaho Power, and the City of Boise.
- Field trips and hands-on activities.
- A tour of Boise's National Weather Service facility.
- Resources to bring back to the classroom (activities, lesson plans, water testing kits, and more!).

The workshop will be held in Boise at the Foothills Learning Center (August 6) and the National Weather Service (August 7). Registrants will be sent maps to both locations.

Registration deadline: July 20. Space is limited, so register early.

Course cost: \$15. Lunch is included.

Class times: 8:30 - 4:30 each day.

Fill out the registration form below, and mail it, along with a check for \$15, to:

Water Awareness Week, Region III
c/o Stephanie Raddatz
United Water
8248 W. Victory, Boise, ID 83709

Workshop credit (1 credit) is available through the University of Idaho or Northwest Nazarene University for an additional charge. You can sign up and pay for your credit at the workshop.

Questions? Contact Stephanie Raddatz (362-7336, Stephanie.Raddatz@UnitedWater.com) or Amy Luft (373-0478, Amy.Luft@deq.idaho.gov).

✓ Yes! Sign me up for the *Extreme Weather* Teacher's Workshop, August 6 and 7
